The TRU-Vu VM-5K is a tremendously helpful tool, specifically designed for field engineers, technicians and installers. Its sharp image and crisp colors let you tune-in and focus cameras to the best image possible, quickly and accurately. (This is nearly impossible with low-resolution, smaller monitors). The VM-5K is ideal for camera installation and maintenance, mobile inspection systems, and security surveillance.

The VM-5K is provided as a complete easy to carry Field Service Kit, which includes the 5.5" LCD monitor, rechargeable Li-Ion battery pack, battery charger, neck and wrist straps, and carrying case. Visit [www.TRU-VuMonitors.com](http://www.TRU-VuMonitors.com) for more details.
